PROFILE

A Mobile App Developer with 4 years of experience in Flutter specializes in creating cross-platform applications that run on both Android and iOS devices using a single codebase.

Key Skills:

- Flutter & Dart
- Cross-Platform Mobile Development
- UI/UX Design
- API Integration
- Version Control (Git)
- Agile Methodologies
- Problem-Solving & Debugging

WORK EXPERIENCE AND PROJECTS

- **E-commerce App:** Developed a fully functional e-commerce application with features such as product listings, shopping cart, user authentication, and payment gateway integration. Ensured smooth performance across Android and iOS platforms.
- **Music Player App:** Created a music player application that allows users to browse and play music from the local storage device, create playlists, and manage their library. Implemented features like background play, custom equalizer settings, beautiful animation and stunning UI .
- **Expense Tracking App:** Built an expense tracking app that helps users manage their finances by tracking income and expenses, categorizing transactions, and generating detailed reports and charts. Focused on data persistence and secure user authentication.
- **Additional Projects:** Worked on various smaller projects to hone skills in Flutter, including a weather app, a to-do list app, and a simple chat application, each with a focus on UI/UX design , functionality and API calls.
